A Healthier America:
ONE COMMUNITY AT A TIME
National Public Health Week
April 5-11, 2010 • www.nphw.org

General Information

The Indiana State Department of Health, Indiana Public Health Association, Marion County Health Department and Indiana University School of Medicine Department of Public Health Office of Public Health Practice are pleased to present the 2010 Indiana Joint National Public Health Week Conference, *A Healthier America: One Community at a Time*. The conference will be held on **April 6 and 7, 2010**, at the Indiana University Purdue University Indianapolis Campus Center.

Imagine other countries looking to the U.S. as a model of health. A place where everyone has access to health care and services, where we're celebrated for embracing healthy lifestyles, and our communities and neighborhoods make it easy for us to make healthy choices. We can make a difference.

If every one of us commits to promoting good health in our communities, we can create a ripple effect from coast to coast. Through just one neighborhood that makes its public parks accessible, one municipality that launches a bike-helmet safety program, one group of people who join together to bring fresh foods to school, or one health center that offers a vaccination program, we can create a collage of public health successes across the country.

Block by block, let's find these small changes and make them today in our communities. The only way to become a healthier nation is to create healthier communities. Join APHA during National Public Health Week 2010 as we work together to create "A Healthier America: One Community at a Time."

This two-day conference is designed for professionals in:

- Alcohol, Tobacco and Other Drugs
- Alternative and Complementary Health Practices
- Community Health
- Community Health Planning and Policy Development
- Disabilities
- Environmental Health
- Epidemiology
- Health Ethics
- Food and Nutrition
- Gerontological Health
- Health Administration
- Health Educators
- Health Law
- HIV/AIDS
- Emergency Health Services
- International Health
- Laboratory
- Maternal and Child Health
- Medical Care
- Mental Health
- Occupational Health and Safety
- Oral Health
- Population Health
- Public Health Education and Health Promotion
- Public Health Nursing
- School Health Education and Services
- Social Work
- Statistics
- Veterinary Care

Continuing Education

Certified Health Education Specialists

An application has been submitted to award up to 11 Continuing Education Contact Hours (CECH) for Certified Health Education Specialists (CHES). SOPHE, including its chapters, is a designated multiple event provider of CECHs by the National Commission for Health Education Credentialing.

Please note, a \$3 per contact hour fee will be collected by Indiana SOPHE for non-InSOPHE members.

Continuing Medical Education

Educational Objectives:

At the conclusion of this program participants should be able to:

- Review the recent medical and policy advances made in areas relevant to public health;
- Examine the current and future issues and trends in public health; and
- Determine strategies for quality improvement and policy change.

Accreditation Statement

Indiana University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation Statement

Indiana University School of Medicine designates this educational activity for a maximum of 10.5 *AMA PRA Category 1 Credit™*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Faculty Disclosure Statement

In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for Commercial Support, educational programs sponsored by Indiana University School of Medicine (IUSM) must demonstrate balance, independence, objectivity, and scientific rigor. All faculty, authors, editors, and planning committee members participating in an IUSM-sponsored activity are required to disclose any **relevant financial interest or other relationship** with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services that are discussed in an educational activity.

Note

While it offers CME credits, this activity is not intended to provide extensive training or certification in the field.

Social Work

CEUs for social workers are approved as Category 1.

Registration

Registration Rates

One-day Registration: \$90
One-day Student Rate: \$45

Two-day Registration: \$170
Two-day Student Rate: \$90

Registration fees include all materials, sessions, continental breakfast, lunch, afternoon break service, and certificate.

How To Register

To register, visit www.publichealthconnect.org. Follow the link to “Indiana Joint National Public Health Week Conference” and complete the online registration form.

After registering, you may pay by credit card by following the link provided at the end of registration. You can also pay by check by mailing a copy of your confirmation and a check payable to **IU Department of Public Health to Indiana University, Department of Public Health, PO Box 7299, Indianapolis, IN, 46207-7299.**

During the registration process, you can also become a member of the Indiana Public Health Association and/or the Indiana Society for Public Health Education!

Refund Policy

Full refunds will be granted to requests received in writing by fax or email at least 14 days prior to the program. Please allow four to six weeks for processing. Refunds will not be given for no-shows; however, a substitute participant will be accepted.

Overnight Accommodations

Indianapolis will be hosting the NCAA Final Four Tournament through April 6. Hotel rooms in the Indianapolis area will be very difficult to find for the night of April 5. Discounted rates have been established at Sheraton Indianapolis City Center Hotel, 31 West Ohio Street, Indianapolis, 46204 for the night of April 6. To reserve a room, call 317.635.2000. Rooms are \$94 plus tax. Parking is included.

Exhibitors and Support Packages Available!

Sponsorship and exhibitor opportunities are available, starting at \$250. All packages include at least one registration, a booth for two days, and the opportunity to present at an exclusive career fair for students.

For more information, please visit: www.publichealthconnect.org or contact Kate Nicholson, program manager of the Office of Public Health Practice at the IU SM Department of Public Health, at katlnich@iupui.edu or 317.274.3178.

Additional Opportunities

April 6

Indiana State Nurses Association Public Nurse Chapter Breakfast--8:00-9:00 am

The Chapter will conduct its bi-monthly meeting of the Chapters members. Public health nurses are welcome to attend the meeting to learn more about the Chapter, to become a member of the Chapter, and to offer suggestions for Chapter work.

Local Health Department Managers Meeting--1:00-3:30 pm

The quarterly meeting of the Local Health Department Manager Association will be held.

IU Bloomington Networking Reception-5:00 pm

Envisioning a Healthier Indiana: Celebrating Indiana University's Plans for New Schools of Public Health

The faculty of the School of Health, Physical Education, and Recreation of Indiana University-Bloomington invite all conference attendees to join them for a reception to celebrate Indiana University's plans to develop two new schools of public health on the Bloomington and Indianapolis campuses and to share in the excitement that the collaborative opportunities these new schools will offer for public health professionals across the state.

April 7

Student Poster Presentation and Contest--8:00 am-4:45 pm

The Indiana Public Health Association is hosting a student poster contest. Students are encouraged to create posters demonstrating research, information, and theories in public health, especially as they relate to the theme of the conference. Abstracts are due by Wednesday, March 1, 2010 to www.indiana.edu/~ipha. For more information, contact Catherine Sherwood-Laughlin, Indiana University Bloomington, at csherwoo@indiana.edu.

Indiana Public Health Association Chapter Breakfast Meetings--8:00-9:00 am

Members of IPHA Chapters are welcome to attend this breakfast. This informal time will allow for discussion, business, and networking. The breakfast will begin at 8 am.

InALBOH Meeting--1:00-3:30 pm

The meeting will include annual election of officers, an advocacy training session specifically for local boards of health presented by NALBOH staff, review of recent InALBOH survey findings and more. The meeting will be from 1:00-3:30 pm.

IU School of Medicine Department of Public Health Networking Reception--5:00 pm

Conference attendees, alumni, and students are invited to attend this networking reception. Catch up with friends, mentor students, and learn about the exciting developments at the Department of Public Health.

Featured Speakers

Carmen Rita Nevarez, MD, MPH: A Healthier America: One Community at a Time

Dr. Nevarez is the current president of the American Public Health Association and serves as the Vice President of External Relations and Preventive Medicine Advisor at the Public Health Institute (PHI), one of the largest and most comprehensive public health organizations in the nation. Dr. Nevarez has 30 years of experience as a physician and 20 years as a public health practitioner. She has served as the Director of the Department of Health and Human Services and Health Officer, City of Berkeley, California, as well as in various clinical settings including serving as Medical Director at La Clinica de la Raza in Oakland. She is Board Chair of Latino Coalition for a Healthy California and a member of the Partnership for Prevention Advisory Board.

Marifran Mattson, PhD: Engaging the Community in Public Health Advocacy—Implications for Partnership Building

Purdue University Professor Marifran Mattson has always been passionate about health issues, but her involvement in prosthetic parity legislation happened by accident—a motorcycle accident that claimed her left leg. Professor Mattson’s current research and teaching program explores the intersection of health, interpersonal, organizational, and public communication. She is particularly interested in questions regarding the relationship between communication processes and problems related to human health and safety. She seeks to identify critical interactive features to improve communication and reduce harm in a diversity of contexts including a public health campaign for motorcycle safety (www.ItInvolvesYou.com). Her advocacy experience includes working with the Indiana Amputee Insurance Protection Coalition to pass legislation in Indiana that provides parity across health insurance plans for coverage of prosthetic devices. She also is a member of the Amputee Coalition of America’s Advisory Committee. Dr. Mattson’s research has been published in multiple journals.

Richard Wilk, PhD.: Getting to the Roots of the Obesity Epidemic: Food and Fun

Richard Wilk is professor of anthropology and gender studies at Indiana University where he directs the Food Studies Program. With a PhD in Anthropology from the University of Arizona, he has taught at the University of California Berkeley, University of California Santa Cruz, New Mexico State University, and University College London, and has held fellowships at Gothenburg University and the University of London. His initial research on the cultural ecology of indigenous Mayan farming and family organization was followed by work on consumer culture and sustainable consumption, energy consumption, globalization, television, beauty pageants and food. The most recent books are *Home Cooking in the Global Village*, *Off the Edge: Experiments in Cultural Analysis*, *Fast Food/Slow Food*, and *Time, Consumption, and Everyday Life*.

April 6th Featured Sessions

<p>D102: Path to Cultural Competency - Latino Culture <i>Carmen E. DeRusha, MA</i></p>	<p>As we become aware of the existence of cultural differences, their impact in all our life's activities, it is necessary to understand how we can become culturally competent. This workshop will present a model to understand this concept and the skills we need to develop to thrive in culturally diverse environments. Although the content is general, the specifics and examples during this workshop will be applied to the Latino culture.</p>
<p>PL103: Health Programs and Political Legitimacy <i>George H. Avery, PhD, MPH</i></p>	<p>The emerging field of public health systems research focuses on the dynamic and bilateral interactions between the public health system and "organizations, communities, environments, and population health." These factors not only have an impact on public health programs, but are affected by those programs. This discussion takes a social contract approach to examine how health engagement activities can impact the legitimacy of the state at a macropolitical level. It specifically examines cases of how public health engagement can be used as a foreign policy tool to re-engage populations with governments that are in danger of losing legitimacy, and factors affecting whether these efforts are successful or counterproductive.</p>
<p>HL104: LEAP Year Planning <i>Judy Whorton, RN, BS, MA</i></p>	<p>We plan for weddings, the birth of a child, going off to college, and retirement. Before a crisis occurs, we should consider LEAP Year Planning. LEAP Year Planning involves the Loving acts of discussing and planning our expectations regarding Advance Directives and our Plan of Care later in life.</p>
<p>HL106: Promises and Perils of Estimating Return on Investment <i>Robert M. Saywell, PhD, MPH;</i> <i>Terrell W. Zollinger, DrPH</i></p>	<p>Public health program directors, as well as funders, need to know the cost of achieving expected outcomes. For example, what are the program costs for every person who gets a mammogram or who stops smoking? This session will discuss how this type of return on investment is determined, what information is needed, how the results are interpreted, and how they can be used for administrative decisions. The limitations will be discussed. The session will present examples and encourage audience participation in the discussions.</p>
<p>D103: Indiana Healthy Weight Initiative: Improving the Health of Our State Through Policy and Environmental Change <i>Ellen Whitt, JD</i></p>	<p>This session will give an overview of the development of the Indiana Healthy Weight Initiative and its emphasis on policy and environmental change aimed at population level impact on overweight/obesity prevalence in Indiana. We will look at examples of related state level policies that have been enacted legislatively in Indiana (small employer wellness tax credit, Coordinated School Health Advisory Council mandate, lactation support in the workplace) and the challenges to fully implementing these policies and evaluating their health impact. We will also examine strategies for achieving statewide reach through policy and environmental change at the organizational and community level (through grassroots organization, cultivation of non-traditional partners, public awareness campaigns, education of state and local leaders, etc.).</p>

April 6th Featured Sessions, Con't.

<p>D106: Health Literacy -- A Call to Action <i>Kathryn Lauten, PhD</i></p>	<p>Health Literacy is believed to play an essential role in the ability of individuals to effectively manage their own health care. Yet, a report by the Institute of Medicine acknowledges that 90 million Americans with low literacy probably also have low health literacy, and that even individuals with adequate health literacy face challenges in the complex demands of health care contexts.</p>
<p>HL103: Your Local Health Department: A Day in the Life <i>Melissa Dexter, MA; Patricia Thomas; Joshua William; David Keller, MD</i></p>	<p>In Indiana, 93 local health departments provide many essential public health services to our citizens. Do you ever wonder who conducts the inspection at your favorite restaurant? Have you thought about who has access to your birth certificate? Please join us to learn more about the daily challenges and successes of your local health department.</p>
<p>PL106: Quality Improvement and You <i>Sarah Strawbridge, BS, CHES; Brittany Knick, MPH</i></p>	<p>Participants will understand what quality improvement is, why it is important, and how to use it. Experiential learning activities will increase participants' skill in how to incorporate quality improvement tools and techniques into their practice. Furthermore, the ten Essential Public Health Services will be shared. Explanation will be provided on how quality improvement and the ten Essential Public Health Services relate to national public health accreditation. Finally, participants will understand their role in Indiana's public health system.</p>
<p>P103: Getting By With a Lot of Help From My Friends <i>Elizabeth (Beth) Morris, LCSW</i></p>	<p>Broad-based community partnerships are essential in achieving many of the public health goals we are all striving for. Bartholomew County has had a Healthy Communities Initiative in place since the early 1990's with active representation from local government, schools, Chamber of Commerce, the hospital, local foundations, businesses, and others. This session will share the lessons learned in recruiting and retaining key community stakeholders to move our work forward.</p>
<p>HC108: What is Food Protection and Why it Matters <i>Travis Goodman, BS</i></p>	<p>This presentation describes food protection as encompassing food safety, food quality, and food defense. It outlines some of the demographic challenges of improving food protection and how new technology will enable us to better protect the food supply.</p>
<p>P105: Refugee Farms: Providing a Culturally Uplifting and Human Rights-Based Project that Promotes Food Security and Community Integration <i>Maria D. Beltran-Figueroa, Carol Waterman</i></p>	<p>A brief history of refugee resettlement in Indianapolis will be discussed. The discussion will include the different refugee groups and their background and how the refugee projects came about.</p>
<p>PL104: It Takes a Village to Fight TB <i>Sarah Burkholder, RN, MPH; Christine Feaster, RM(NRCM), M(ASCP) CM; Lixia Liu, PhD; Shelley Matheson, BS</i></p>	<p>To fight TB, it takes collective efforts among the TB controllers, laboratorians, physicians, nurses and public health workers. This concept will be presented to the session participants as a tabletop exercise. The audience will break up into groups per job. One group will be the TB controllers, one will be the PH nurses, one will be ISDH Labs, etc. Then scenerios will be provided and the groups will role play and discuss.</p>

April 6th Featured Session, Con't.

<p>HL105: Unintentional Injuries in Indiana, A Risk for All <i>Gregory Steele, DrPH, MPH; Joe O'Neil, MD, MPH</i></p>	<p>Description of the magnitude, risks, and at risk populations for the leading types of unintentional injuries occurring in Indiana.</p>
<p>PL102: Legal Do's and Don'ts in Public Health Advocacy and Education <i>Heather McCabe, MSW, JD; Eric R. Wright, PhD</i></p>	<p>This interactive workshop will explore the legal and ethical expectations for public health professionals around advocacy and educating policymakers as well as the public. Participants will learn about the formal legal rules governing the distinction between advocacy and education and discuss some of the special ethical considerations in engaging in public health advocacy. Following a brief overview of the basic legal standards, participants will discuss case studies and engage in role plays designed to facilitate discussion of key principles and ethical concerns.</p>
<p>D100: Organizational Cultural Competency Trainings <i>Mwangi James Murage, MPH</i></p>	<p>The presentation will provide findings on a statewide cultural competency trainings assessment on organizations providing services to youth and families in the mental health, education, juvenile justice and child welfare systems. Focusing on the importance of cultural competency to organizations' success, the presentation will highlight aspects of making cultural competency known when seen; thus resulting to real benefits.</p>
<p>PY100: Community Health Collaboration: Results of Cooperative Efforts of a Private Pediatric Practice and Community Organizations <i>James J Laughlin, MD</i></p>	<p>This presentation will give an overview of collaborative projects in the Bloomington community between a private pediatric group, local hospital, community school system, YMCA, Chamber of Commerce, and other agencies to coordinate health related issues for children.</p>
<p>PD100: Effective Use of PowerPoint <i>Lorie Shuck</i></p>	<p>In this session, participants will identify how PowerPoint presentations can be enhanced and discover best practices when designing a presentation.</p>
<p>PD106: Using a Social Marketing Approach in Public Health Practice <i>Jane Ellery, PhD</i></p>	<p>This session will help you begin to focus on your "consumers" as being key to new solutions rather than the problem you are trying to fix. Consumers are the experts when it comes to their life circumstances. "Thinking Like a Marketer" as you envision, develop, implement, and evaluate initiatives that encourage healthy living may change the way you practice!</p>
<p>HC104: Indiana Board of Animal Health's Role in One Health <i>Marianne Ash, DVM, MVPH, DACVPM</i></p>	<p>This presentation will discuss the important role of our veterinary community, and more specifically the Indiana Board of Animal Health, in surveillance, detection and management of disease at the interface between human and animal health.</p>
<p>HL108: Antibiotic Resistance—Emergence and Prevention <i>Rae Schnapp, Stephen J. Jay, M, MaryAnn Sullivan, State Representative</i></p>	<p>The emergence of antibiotic resistance will be discussed with an emphasis on MRSA and the potential for emergence from livestock. We will include discussion of techniques for minimizing the emergence of antibiotic resistance.</p>

April 7th Featured Sessions

<p>HL110: Our Can of Worms: The Truth about Disparities <i>NaKaisha Tolbert-Banks, MSW; Dr. Monique Busch, PhD, ACSW, LCSW</i></p>	<p>This interactive yet educational workshop will raise awareness of and address the disproportional representation of minorities within the areas of: juvenile justice, mental health, education, and health care. This workshop will also examine disproportionate placement, disparate outcomes, and research conducted on youth in child welfare. Finally, it will address needs for change within the state to address disparity including barriers and successes of current initiatives.</p>
<p>PD104: Budgets--What You Need to Know <i>Paul J. Lang, MPA</i></p>	<p>You will learn how to put a budget together. What are the expectations of your board? What do your donors want to know? It's not just numbers. It's also goals and objections the numbers support.</p>
<p>HL107: An Ounce of Prevention is Worth a Pound of Cure When it Comes to Cancer <i>Lisa M. Hess, PhD; Silvia M. Bigatti, PhD</i></p>	<p>We will discuss latest findings regarding best prevention efforts for cancer, as well as the costs to patients and family members of diagnosis and treatment.</p>
<p>HC103: Active Transportation Initiatives in Indiana <i>Sandra Cummings, MSW; Kim Irwin, MPH; Anna Tyszkiewicz, MPA; Michael O'Loughlin, MURP, APBP</i></p>	<p>Panel discussion will provide an introduction to initiatives in Indiana to promote walking and biking, such as Safe Routes to School, Complete Streets, and special projects of the Metropolitan Planning Organizations.</p>
<p>PL107: Moving Public Health Forward: Accreditation in Indiana. <i>Kristin A. Adams, PhD, CHES; Caitlin LaBranche, MPH</i></p>	<p>Health departments will be able to apply for accreditation in 2011. Indiana is moving towards accreditation. This presentation will discuss the steps already underway and the plans for the future.</p>
<p>ST100: Getting Ready to Enter to Workforce <i>Doug Smith</i></p>	<p>Preparing college students to enter the workforce. Overview of writing resumes, uncovering transferable skills, looking for jobs, networking and other career related items.</p>
<p>P102: Building Effective Coalitions <i>Roseann M Lyle, PhD</i></p>	<p>The characteristics of and steps for building an effective coalition will be presented. Resources from the Community Tool Box, the Prevention Institute and Community Anti-Drug Coalitions of America will be utilized. Practical examples will be provided throughout from the Coalition for Living Well after 50 in Tippecanoe County.</p>
<p>HL100: Introduction to Health Education <i>Jeffrey Clark, H.S.D. FASHA</i></p>	<p>This session will provide participants with an overview of the health education profession and the role of health education in community and public health efforts. The eclectic nature of health education is a reflection of the multidisciplinary nature of the profession. An examination of the foundations of the profession, major responsibilities and competencies of a certified health education specialist, and the five settings in which health education is practiced will be presented.</p>

April 7th Featured Sessions, Con't.

<p>PD105: Social Media & Crisis Communication for Public Health <i>Erik Deckers, MA</i></p>	<p>Most people are no longer gathering their news through mainstream media channels, finding it instead through blogs, online newspapers, social networking sites like Twitter, and even straight from an agency. This session will discuss the different tools available and help attendees think about how to formulate an easy, free communication plan with their populations.</p>
<p>HC105: Project ICE: Integrated Care through Education <i>Bart Marshall, LCSW; Martha Levey, MA</i></p>	<p>Project ICE focuses on improving health outcomes for those adults living in a rural Indiana county that suffer from diabetes and a co-occurring mental illness and/or intellectual/developmental disability. The primary strategy to achieve this goal is to provide interdisciplinary trainings for care providers on the 3 possible conditions and strategies to improve coordination of care.</p>
<p>HL102: 2009 H1N1 Pandemic: Surveillance and Trends <i>Pam Pontones, MA; Shawn Richards, BS; Matthew Ritchey, DPT, MPH; Mark Glazie</i></p>	<p>This will be a five-person panel with a moderator, consisting of three representatives from the ISDH Surveillance and Investigation Division and two representatives from the ISDH Laboratory. There will be a slide presentation followed by a facilitated question-and-answer session.</p>
<p>D104: African American Health: Unique Challenges, Strategic Solutions <i>Dr. Jacquelyn F. Green, Ph.D., ACSW, CADAC</i></p>	<p>During this interactive and didactic presentation, participants will learn about the disparity in health challenges faced by African Americans. Strategies for improved mental, physical and spiritual health will be discussed. Dr. Green's first book, <i>Spiritual Resilience</i>, which addresses health, relationship, and societal challenges provides the foundation for this presentation.</p>
<p>P104: Community Coalitions: How to Get Them and How to Keep Them Going <i>Anita Gaillard, MSPH</i></p>	<p>This session will discuss the key fundamentals of building and maintaining a community-based coalitions to work on health and policy issues. This will include the phases of coalition development and include a local example.</p>
<p>HL109: Health Literacy: Addressing Issues from the Past, Present, and Future <i>LaShara A. Davis, MA</i></p>	<p>This presentation will discuss the progression of research on health literacy including issues of definition, measurement, and operationalization.</p>
<p>ST101: An Overview of Podcasting <i>Tom Janke</i></p>	<p>iPods and podcasts have invaded. Learn how we can leverage this technology for good. This session will explore the potential of podcasting for communicating your message. This overview will provide participants with an awareness of what is needed to produce and publish podcasts.</p>
<p>HL111: Foodborne Disease Outbreak Response Tabletop Exercise <i>Pam Pontones, MA; Tom Cronau, MA; Jerry Hege, BS; Dan Gala, BS</i></p>	<p>This session will take attendees through the steps involved in foodborne disease outbreak investigations as they typically occur in the State of Indiana. Brief presentations from area experts will be presented on the epidemiological, environmental assessment, and laboratory testing components of outbreak response. The audience will be presented with an outbreak case-study and participate in a tabletop style exercise facilitated by the presenters.</p>

April 7th Featured Sessions, Con't.

<p>PD103: Grant Funding - Is it a Magic Bullet? <i>Joe R. Martinez; Anne Graves</i></p>	<p>Outside funding is often seen as a magic bullet that can help solve community issues, but where do you get the money? This session will cover some of the basics of a field of work that is becoming specialized with its own language.</p>
<p>PL102: A Primer on the Public Policy Process for Public Health Professionals Heather McCabe, MSW, JD; Eric R. Wright, PhD</p>	<p>This workshop will provide public health professionals an overview of the formal and informal policymaking processes at the state and federal levels. The focus will be on understanding the constraints within which public health policy is made and on where public health advocacy and education is likely to be most effective.</p>

Agenda

Each day, the conference schedule is as follows:

8:00-9:00 am	Registration, Breakfast, and Trade Show
9:00-10:15 am	Welcome, Keynote Presentation
10:15-10:45 am	Break and Trade Show
10:45-11:45 am	Concurrent Sessions
11:45 am-1:00 pm	Lunch and Trade Show
1:00-2:00 pm	Concurrent Sessions
2:00-2:30 pm	Break and Trade Show
2:30-3:30 pm	Concurrent Sessions
3:30-3:45 pm	Break
3:45-4:45 pm	Closing Session

More Sessions Coming Soon!

Even more sessions will be available at the conference. Keep up to date by visiting www.publichealthconnect.org. Participants will receive a full agenda approximately two weeks before the conference.
